

CONTRACT NUMBER: D900022

WEST MAIN STREET
PUBLIC OUTREACH

**West Main Street over Steele Creek
Village of Ilion**

Project Description

The New York State Department of Transportation has selected Tioga Construction to replace the superstructure of the West Main Street bridge over Steele Creek in the village of Ilion. BIN 1002720 is located just west of the West Main Street intersection with West Street.

Work Zone Traffic Control

The bridge will be repaired utilizing alternating one-way traffic controlled by traffic signals. Separate temporary traffic signals will be installed at the bridge and will be coordinated with the traffic signal at the intersection of West Street with West Main Street. All approaches to the temporary traffic signal will be equipped with vehicle detection.

Temporary concrete barrier will be installed to separate traffic from the actual work zone. Pedestrian detours will be in place during each phase of the work. Access to the properties immediately adjacent to the bridge will be maintained at all times.

Project Schedule

The following schedule has been proposed for the bridge.

Work Zone Traffic Control	Activity	Begin Date	End Date
Daily Lane Closure	Install Signals	March 21, 2016	March 25, 2016
N/A	Install Variable Message Signs, Signal in Flashing Mode	April 11, 2016	April 17, 2016
Phase I	Eastbound Lane Construction	April 18, 2016	July 13, 2016
Phase II	Westbound Lane Construction	July 18, 2016	September 16, 2016
Daily Lane Closure	Grind Deck / Final Paving / Striping, Clean-up	September 19-30, 2016
