

Effective April 22, 2009 the Village Board of Trustees of the Village of Ilion has enacted changes to the Villages codes regarding garage sale permits. Residents will no longer be required to secure a garage sale permit from the local Village offices. However continuous garage sales **will not be tolerated**. A continuous garage sale is defined as follows in the Village Local Law: Continuous Garage Sale includes any sales as defined under Garage Sale which happens more than three times in the year per household or address within a twelve month period. The local law provides for penalties and fines for any person found to be in violation of these provisions.
